E. J. WILKINSON, Residence, 215 Bute street.
WILLIAMS, MARTIN & GRAY, Wholesale druggists, Commercial Place and Union street.

Report on Immigration.
 (By Telegraph to Virginian-Pilot.)
 Washington, Dec. 7.—The annual report of the commissioner-general of immigration shows that during the last fiscal year the total number of immigrants who arrived in this country was 448,572, of which 23,200 came through Canada. Of the whole number 304,143 were males and 144,429 females. This is a net increase over 1899 of 136,875. In addition 65,635 aliens came as cabin passengers. Of the whole number of arrivals 424,760 came from European countries, 17,946 from Asia, 36 from Africa and 5,886 from all other places. The report recommends physical inspection of immigrants at port of debarkation, and that the head tax upon aliens be increased to not less than \$2 per capita.

Scrofula in the blood shows itself sooner or later in swellings, sores, eruptions. But Hood's Sarsaparilla completely cures it.

We have imported some very rich overcoatings for late buyers. They are here on time for the holidays.
RUDOLPHI & WALLACE, 333 Main street.

Making Home Cozy.
 Is easy and costs but little if you get in the right store. Williamson & Sykes can furnish every room, from kitchen to parlor, at prices that will surprise you. Suppose you give them a call. 561 and 563 Church St., near Queen St.

Our "Special Number" black socks meets all the requirements—a perfect wearing black sock. The price always the same—25c.
RUDOLPHI & WALLACE, 333 Main street.

SOUTHERN INDUSTRIES.
 THE CONVENTION CLOSES ITS SESSION AT NEW ORLEANS.
 (By Telegraph to Virginian-Pilot.)
 New Orleans, Dec. 7.—The Southern Industrial Convention today was brought to a close by the re-election of H. H. Hargrove, of Louisiana, as president, and N. F. Thompson, of Alabama, as secretary, and the selection of Memphis as the next place of meeting. There was a session tonight, but it was not largely attended and the only speaker who excited any interest was Tetsutaro Inumaru, the attaché of the Japanese legation, who spoke on "Who Rules the Chinese Empire?" His paper was unique.
 The first address of the day was that of State Senator John Dymond, of Louisiana, on sugar manufacture in the South. The convention heard extemporaneous addresses by George H. Anderson, of the Chamber of Commerce, of Pittsburg.
 After a brief address by Bernard McCloskey, of New Orleans, Mr. E. J. Bryan addressed the convention on the subject of agricultural implement manufacture.
 A resolution was adopted recommending Congress to authorize early completion of the construction of a channel from Galveston Road to Houston, Tex.
Before You Travel.
 North or West, call upon the undersigned for lowest rates to all points via Baltimore and Ohio railroad (Royal Blue Line), Bay Line, Washington steamers and Chesapeake Line; finest, fastest and safest trains in the world.

TYPHOID FEVER. IN MILITARY CAMPS DURING THE SPANISH-AMERICAN WAR.

(By Telegraph to Virginian-Pilot.)

Washington, Dec. 7.—Surgeon General Sternberg made public today a report upon the origin and spread of typhoid fever in the United States military camps during the Spanish war of 1898, prepared by a board consisting of Major Walter Reed, surgeon, U. S. A.; Major Victor C. Vaughan, division surgeon U. S. V., and Major Edward O. Shakespeare, brigade surgeon U. S. V. The surgeon general comments upon the widespread prevalence of typhoid in 1898, 20,000 cases of this disease appearing among the troops encamped within the limits of the United States from May until September.

During the Spanish war every regiment constituting the First, Second, Third, Fourth, Fifth and Seventh Army Corps developed typhoid fever, this being true of both the volunteer and regular commands. More than 90 per cent. of the volunteer regiments are shown to have developed typhoid fever within eight weeks after going into camp, and the fever developed also in certain of the regular regiments within three to five weeks after the tents went up. Typhoid became epidemic in all camps, large and small, North and South, and was found to be so widely distributed in this country that one or more cases are likely to appear in any regiment within eight weeks after assembly, whether on the march or stationary. It is also stated that, with typhoid fever as widely disseminated as it is in this country, the chances are that if a regiment of 1,500 men should be assembled in any section and kept in a camp having the most perfect sanitary conditions, one or more cases of the fever would develop.

Nevertheless it was found that many commands during the war were unhealthily located, that the space allotted to regiments was in some instances, entirely inadequate, and that many regiments were allowed to remain on the site too long.

Requests for changes in location made by medical officers were not always granted. In some instances camps were set up in the face of earnest protests from medical officers. The camp became very filthy in general, it is stated, and line officers are thus held responsible to some extent for the unsanitary conditions that developed. The board suggests that greater authority be given medical officers in questions relating to the hygiene of camps.

At Chickamauga, Jacksonville, Camps Alger and Camps Meade contaminated water is stated to have played but a small part in spreading the fever. To guard against the contamination of the water supply, however, facilities for the sterilization of water for troops in the field are recommended.

Files are believed to have been transmitters of the typhoid bacillus. It has been conclusively settled that a company badly infected with typhoid cannot rid itself of the infection by simply changing its location.

Except where urgent emergency makes it necessary, the board urges that one command should not be located upon a site recently occupied and vacated by another. It is urged that the soldiers' bed should be raised from the ground, and also that the soldiers be made to remove their outer clothing at night wherever possible.

Li Hung Chang Pleased.
 (By Telegraph to Virginian-Pilot.)
 Peking, Dec. 7.—Li Hung Chang has informed General Caffee that he and all the people of the province of Chi Li are extremely pleased and gratified at the behavior of the American troops toward the Chinese.

Guarding Against an Attack.
 (By Telegraph to Virginian-Pilot.)
 Cape Town, Dec. 7.—Owing to the attempts of sympathizers to communicate with the Boer prisoners at Greenpoint Camp, Maxim guns have been placed in position on the surrounding heights, in readiness for a disturbance.

You want to get well. Who doesn't? But you are discouraged. You've tried medicines that promised much but didn't keep their promises. If you want to get well try the medicine that makes people well.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.

For diseases of the stomach and organs of digestion and nutrition, this medicine offers a practically unfailing cure. Ninety-eight per cent. of all who use it get well.

"I cannot express half my feelings of gratefulness to you," writes Mrs. John E. Clark, of Interprie, Shelby Co., Mo. "I had been despaired of ever getting well. I had been in bed with chills for twelve years. Had aches all through me, numb hands, cold feet, and everything I ate disagreed; my nerves were completely broken down, and I was very nervous, irritable and despondent. When I first wrote to you I thought I could never be cured. I have taken six bottles of Dr. Pierce's Golden Medical Discovery, and my health is now good."

Another Coal Strike!

When you find that the price of coal has taken another jump, and you have failed to buy your winter's supply, then you will say there is another coal strike. No, sir, we beg to differ with you in this respect. The trouble is not with the strike, but in your delay. You waited too long to order. We expect coal to advance most any day, and in view of this, we would say to you, send us your order TO-DAY, we will save you money. Don't wait until to-morrow.

Yours respectfully,
CHAS. E. SCOTT & CO.
 200 LOVETT AVENUE.
 Old Phone 251. New Phone 1125.

30 DAYS TRIAL FREE

Marvelous Nerve Force Imparted by a New and Startling Discovery
 ---Every Weak, Nervous, or Enfeebled Man Should Give It a Test.

Will Be Sent Free on Thirty Days Trial so All May Experience the Wonderful Sensation of Restored Vigor—Without Cost.

PROF. A. CHRYSTAL.
 A well-known professor has made the fortunate discovery that what has heretofore been known as impotency or lost manhood is due to paralysis of the nerves. As it requires a vigorous condition of the nerves to control the muscles, the professor has found a wonderful power that instantly awakens the nerves and thus restores complete muscular strength. He says: "The marvelous power exerted by recent additions and improvements to my electric belt and appliances induces me to send it on 30 days free trial, so certain am I that it will cure and that the wearer will gladly pay the small price asked after the 30 days trial."

To men who have battered their stomachs with drugs I want them to exercise their judgment and consider that electricity is the greatest power on earth. Its unseen current cuts life and force into whatever it touches. The constant, steady life extended by my new Electric Appliances gives instant relief and never fails to cure Rheumatism, Backache, Kidney troubles, Early Decay, Night Losses, Lack of Nerve Force and Vigor, Nervous debility, Underdevelopment and Lost Vitality. You may not have faith in it now, but wear it for 30 days and you will then realize why I have such confidence in it as to send it to you on trial.

I receive the most wonderful testimonials day after day. Ray S. B. Stephens, of Derry Station, Westmoreland Co., Pa., says it cured him of a terrible disease, and had deprived him of happiness. His nerves were in a bad condition of weakness, but in three days after putting on the belt and suspensory he felt wonderfully improved and now has the full strength and vigor of every member of the body.

Geo. A. Johnson, Box 112, Defunct Post, N. Y., says that while he never practiced, except when young he found himself at 40 a prematurely old man, but the belt and suspensory have completely restored him.

J. V. Spencer, of Grafton, W. Va., says he spent hundreds of dollars in medicines and the old styles of electric belts so widely advertised, but received no benefit. Although 44 years old and for twelve years a sufferer of lost manhood my belt cured him sound and well and he is now strong and vigorous.

A. Zuhlhaus, of Sharpsburg, Pa., wore my belt and suspensory for unhealthy organs and embosoms and has regained perfect strength and health.

Geo. R. Makley, of Oneonta, N. Y., states that after trying everything that he could find without any benefit, he tried one of my belts and appliances and was cured of varicose, general debility and lack of nerve force and vigor. He gained eight pounds in 35 days and would not take one hundred dollars for belt if he could not get another.

John B. Bardsley, of Gunnison, Colo., says the belt and suspensory have entirely cured him and he will gladly explain what his trouble was to all who care to inquire, as he is very much enthused by his recovery.

S. L. Fry, of Redding, Iowa, says the belt saved his life and he will gladly tell other sufferers his experience.

Thousands of others write in the same grateful manner and should the reader desire to write to any of these gentlemen please send a stamp for reply.

Do not fail to write at once to Prof. A. Chrystal, 1913 Postoffice Block, Marshall, Mich., as he is anxious to have every man wear his new and marvelous belt and suspensory for thirty days and try it fully before spending a cent for it. Remember after giving the belt a trial if you are not perfectly satisfied return it to us. It costs you nothing to try it. Write to-day before you forget it.

To-day's Bargain News in Fashionable Suits and Fashionable Overcoats for Men & Young Men.

Sixteen powerful selling scales of prices are submitted for this Saturday's special selling in Stylish Fall and Winter Suits and Overcoats—Sixteen scales of measurements that the lowest estimate could place at that many hundred garments of the most dependable sorts—containing all of the style—good service and tailoring elegance of the costlier measure made garments—There may be big things in clothing values anticipated at this store to-day—These lines enumerated under these unusual and unprecedentedly reasonable measurements contain more reasonable worth—more real desirable features of up to date dressiness—more captivating styles and shapes and more real economy than any similar kind or character of Suits and Overcoats ever named in the midst of a reasonable season—the fact of the matter is simply this—the backwardness of reasonable weather naturally forces the manufacturer to unload—and as operators representing far from a small investment, the matter of increased sales and proper conversion of merchandise in its reasonable season suggests itself as a wise policy to turn all surplus stock over AT A PRICE that will even up the stock and keep the avenues of manufacturing open for its regular and continual outputs—There is positively not a Suit or Overcoat mentioned in this advertisement that does not stand as a gem for worth and value—and there isn't a single garment, matters not how low its measurements, that is not thoroughly dependable as far as its wearing qualities are concerned—and when these quotations are given due reflection and proper thought—keeping in mind they are FULL WINTER WEIGHT Woollens of the best standard makers—goods that will not fade—rip—bag out—or fail to render that type of satisfaction that Burk Garments are noted to give—the prices quoted are DOWN, WAY DOWN below their regular worth and value, and no man or young man will ever have cause to regret that he participated in these big selling inducements now in effect at this store this day.
